COMPANY **OVERVIEW**

SEKILAS PERUSAHAAN

> PT Waskita Karya Infrastuktur (WKI) adalah entitas anak PT Waskita Karya (Persero) Tbk yang memiliki 5 *core business* di bidang konstruksi, manufaktur, trading, pengelolaan peralatan dan investasi di bidang energi.
>
> *PT Waskita Karya Infrastructure (WKI) is a subsidiary of PT Waskita Karya (Persero) Tbk which has 5 core businesses in the fields of construction, manufacturing, trading, equipment management and investment in the energy sector.*

PT Waskita Karya Infrastruktur didirikan pada tahun 2016 dengan nama PT Waskita Karya Energi, yang awalnya berfokus pada sektor energi yaitu Pembangkit Listrik Tenaga Minihidro (PLTMH) Sangir berkapasitas 10 MW di Sumatera Barat. Proyek ini menunjukkan komitmen Perseroan untuk menyediakan sumber energi terbarukan yang ramah lingkungan.

Founded in 2016 as PT Waskita Karya Energi, PT Waskita Karya Infrastruktur initially focused on the energy sector, highlighted by the 10 MW Sangir Mini Hydro Power Plant in West Sumatra. This project demonstrated the Company's commitment to providing environmentally friendly renewable energy sources.

Pada tahun 2019, Perusahaan berganti nama menjadi PT Waskita Karya Infrastruktur, dan memperluas bisnisnya untuk mendukung pembangunan infrastruktur, terutama di bidang transmisi dan telekomunikasi. Pada tahun 2019 hingga 2020, WKI merambah ke sektor manufaktur dengan mendirikan Pabrik Baja di Cikande, Banten, dengan kapasitas produksi tahunan sebesar 38.400 ton/tahun guna mendukung proyek transmisi, telekomunikasi, dan jalan tol. Perusahaan juga memasuki sektor trading untuk meningkatkan portfolio investasinya.

In 2019, the Company rebranded to PT Waskita Karya Infrastruktur, expanding its business to support infrastructure development, particularly in transmission and telecommunications. Between 2019 and 2020, WKI ventured into manufacturing, establishing a Steel Plant in Cikande, Banten, with an annual production capacity of 38,400 tons/year to support projects in transmission, telecommunications, and toll roads. The Company also entered the trading sector, enhancing its investment portfolio.

Pada tahun 2021, WKI berekspansi ke di bidang pengelolaan alat berat dan menerima sertifikat dari *World Safety Organization* untuk standar keselamatan yang tinggi. Pada tahun berikutnya, Perusahaan mencapai peningkatan nilai kontrak baru yang signifikan, dengan total Rp732,71 miliar, mengukuhkan posisinya sebagai pionir di industri ini.

In 2021, WKI expanded into the field of heavy equipment management and received a certificate from the World Safety Organization for its high safety standards. The following year, the Company achieved a significant increase in new contract values, totaling Rp732.71 billion, solidifying its position as a major industry player.

Dengan inovasi dan ekspansi yang berkelanjutan di bidang konstruksi, manufaktur, trading, investasi, dan alat berat, WKI terus berdedikasi untuk memberikan kontribusi positif bagi perkembangan industri.

With continuous innovation and expansion across construction, manufacturing, trading, investment, and heavy equipment, WKI remains dedicated to contributing positively to the industry's development.

> Building infrastructure is not just about creating roads and bridges; it's about laying the foundation for future growth and prosperity.

COMPANY **STRUCTURE**

STRUKTUR PERUSAHAAN

> "Infrastructure development requires a robust organizational structure to manage the complexities of large-scale projects effectively."

VISION **MISSION**

VISI DAN MISI

VISION

Menjadi Mitra Tepercaya di Bidang Sarana Infrastruktur dan Energi Baru Terbarukan yang Berkelanjutan

Becoming a Trusted Partner in the Field of Sustainable Infrastructure and New Renewable Energy

MISSION

1. Melakukan ekspansi dan penguatan layanan di bidang sarana infrastruktur dan energi baru terbarukan yang berkelanjutan;
2. Peningkatan kapabilitas sumber daya manusia, penguatan likuiditas dan penerapan sistem digitalisasi terintegrasi;
3. Memperkuat kolaborasi dan sinergi dengan mitra strategis perusahaan;
4. Menerapkan profesionalisme yang berdasarkan QHSE (Quality, Health, Safety,.Environment) dan Manajemen Risiko dengan mengedepankan prinsip-prinsip GCG (Good Corporate Governance)

1. Expanding and strengthening services in the field of sustainable infrastructure and new renewable energy;
2. Improving human resource capabilities, strengthening liquidity, and implementing an integrated digitalization system;
3. Strengthening collaboration and synergy with the company's strategic partners;
4. Implementing professionalism based on QHSE (Quality, Health, Safety, Environment) and Risk Management by prioritizing the principles of Good Corporate Governance (GCG).

CORE **VALUES**
NILAI DASAR PERUSAHAAN

Nilai dasar Perusahaan AHKLAK—Amanah, Kompeten, Harmonis, Loyal, Adaptif dan Kolaboratif—merupakan prinsip yang dipegang oleh Perusahaan dalam menerapkan kode etik. Sebagai bagian dari BUMN, nilai-nilai ini sangat penting dalam komitmen Perusahaan untuk melayani negara.

The core values of AHKLAK—Integrity, Competence, Harmony, Loyalty, Adaptive and Collaborative—are the guiding principles that the Company adheres to in upholding its code of ethics. As a State-Owned Enterprise (BUMN), these values are integral to the Company's commitment to serving the nation.

LINE BUSINESS
LINI BISNIS

Waskita Karya Infrastruktur adalah Perusahaan infrastruktur dan energi yang berkembang di Indonesia. Kami melakukan investasi dan mengoperasikan infrastruktur dan fasilitas di sector-sektor utama seperti pembangkit listrik, pertambangan, trading, pengelolaan peralatan dan sektor manufaktur.

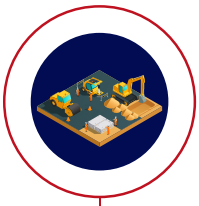

Waskita Karya Infrastruktur is an infrastructure and energy Company developing in Indonesia. We invest and operate infrastructure and facilities in key sectors such as power generation, mining, trade, equipment rental and the manufacturing sector.

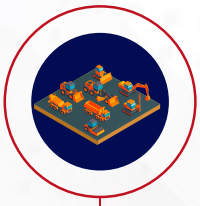

Sejak berdiri, WKI telah banyak terlibat dalam beberapa proyek energi dan infrastruktur. Melalui perencanaan, proses, dan manajemen yang lebih baik, kami berperan mendukung pembangunan infrastruktur untuk membantu meningkatkan kualitas hidup masyarakat.

Since its founding, WKI has been involved in several energy and infrastructure projects. Through better planning, processes and management, we play a role in supporting infrastructure development to help improve people's quality of life.

Setiap aspek bisnis WKI ditandai oleh profesionalisme dan standar tata kelola Perusahaan yang tinggi. Kami bermitra dengan mitra strategis baik produsen, dan konsultan, untuk memastikan bahwa setiap proyek sesuai dengan standartnya. Komitmen kami adalah, memberikan hasil terbaik dan bermutu serta tepat guna dan relasi yang berkelanjutan.

Every aspect of WKI's business is characterized by professionalism and high standards of corporate governance. We partner with strategic partners, both manufacturers and consultants, to ensure that every project meets their standards. Our commitment is to provide the best, quality, effective results and sustainable relationships.

SUBSIDIARY ANAK PERUSAHAAN

PT Waskita Wado Energi

PT Waskita Wado Energi, didirikan pada Desember 2016, mengoperasikan pembangkit listrik tenaga air (PLTA) berkapasitas 50MW di Sungai Cimanuk, Kabupaten Sumedang, Jawa Barat. Pembangkit yang memanfaatkan aliran sungai pada area yang mencakup hutan, perkebunan, dan lahan pertanian ini berkontribusi pada produksi energi berkelanjutan. Sebagai sumber energi terbarukan, PLTA Wado tidak hanya mendukung masyarakat dengan "Menerangi Kehidupan, Membangun Negeri," tetapi juga menawarkan manfaat lingkungan dengan teknologi ramah lingkungan dan biaya perawatan yang rendah.

PT Waskita Wado Energi, established in December 2016, operates a 50MW hydropower plant on the Cimanuk River in Sumedang Regency, West Java. The plant draws from a diverse watershed area covering forests, plantations, and agricultural lands, contributing to sustainable energy production. As a renewable energy source, the Wado hydropower plant not only supports the community by "Lighting Life, Building the Country," but also offers environmental benefits with its eco-friendly technology and low maintenance costs.

COMPANY **MILESTONES**

TONGGAK SEJARAH

2016

Mendirikan PT WKE dan mengoperasikan PLTMH Sangir 2x5 MW

Waskita Karya Energi Was Established and operating 2x5 MW Sangir MHP

2019

PT WKE Berubah nama menjadi PT WKI dengan cakupan lini bisnis infrastruktur yang lebih luas

Waskita Karya Energi changes its name to Waskita Karya Infrastruktur to expand investment scope and capitalize on the growing construction & engineering market opportunities

2020

Mendirikan lini bisnis manufaktur Waskita Tower Steel Division (TSD)

Established Waskita Tower Steel Division (TSD) manufacturing business line

2021

Tetap berinvestasi di sektor non-tol dan non-realti, serta membentuk Heavy Equipment Division

Expanded into the heavy equipment rental business by establishing Heavy Equipment Division and continued to invest in the non-toll and non-realty sectors

2025

Telah dilakukan divestasi saham penuh tahun 2025 pada Anak Perusahaan PT Waskita Sangir Energi, Sangir Hulu, Sumbar yang bergerak dibidang Pembangkit Listrik Tenaga Mini Hidro (PLTMH) berkapasitas 10MW

A full share divestment was carried out in 2025 in a subsidiary, namely PT Waskita Sangir Energi, which operates in the field of Mini Hydro Power Plants (PLTMH) with a capacity of 10MW.

2026

Pencapaian Portofolio investasi WKI di bidang *Water Supply System, Hydro Electric Power Plant, Water Infra* dan infrastruktur lainnya serta pertumbuhan bisnis Baja dan Alat Berat dengan fokus pada pasar eksternal

Achievement of WKI's investment portfolio in the Water Supply System, Hydro Electric Power Plant, Water Infra and other infrastructure as well as the growth of the Steel and Heavy Equaipment Businesses with a focus on external markets

WORKSHOP PABRIKASI CIKANDE

P

BAJA

Perusahaan secara aktif berpartisipasi dalam pembangunan infrastruktur di Indonesia melalui Workshop Pabrikasi Baja, yang menyediakan material pagar pembatas untuk 28,5 km jalan tol. Pabrik Fabrikasi Baja dengan teknologi muktahir di Cikande, Banten, yang memiliki luas 4,3 hektar dan memproduksi 38.400 ton baja per tahun, menghasilkan produk baja berkualitas tinggi untuk berbagai proyek infrastruktur.

The company actively participates in infrastructure development in Indonesia through its Steel Fabrication Workshop, which provides guardrail materials for a 28.5-km toll road. Its state-of-the-art Steel Fabrication Plant in Cikande, Banten, covers 4.3 hectares and produces 38,400 tons of steel per year, producing high-quality steel products for various infrastructure projects.

Workshop ini menyediakan berbagai menara transmisi tegangan tinggi mulai dari 150Kva hingga 500Kva, dan diproduksi sesuai dengan standar industri.

- Tower Transmisi tegangan Tinggi;
- Tower Telekomunikasi (BTS)
- Tower Guyed mash
- *Guardrail;*
- *Modular Keet;*
- *Joint Plate;*
- Gerbang Tol;
- Pintu Air Baja

This Workshop provides a range of high voltage transmission towers ranging from 150Kva to 500Kva, and are manufactured in accordance with industry standards.

- *High Voltage Transmission Tower*
- *Telecommunication Tower*
- *Guyed Mash Tower*
- *Guardrail*
- *Modular Keet*
- *Joint Plate*
- *Toll Gate*
- *Steel Sluice Gate*

WORKSHOP PERALATAN CILEUNGSI

Perusahaan memiliki unit bisnis lain, yaitu Workshop Peralatan, yang berfokus pada rental alat berat dan konstruksi. Workshop peralatan berperan aktif dalam proyek-proyek infrastruktur seperti cut and fill, pengaspalan jalan, dan lain-lain. Workshop peralatan mendukung pembangunan jalan tol, jalan nasional, bendungan, dan Ibu Kota Negara (IKN), serta berbagai proyek komersil, residensial, utilitas, dan proyek konstruksi lainnya.

The company has another business unit, the Equipment Workshop, which focuses on heavy equipment rental and construction. The equipment workshop plays an active role in infrastructure projects such as cut and fill, road paving, and others. The equipment workshop supports the construction of toll roads, national roads, dams, and the National Capital (IKN), as well as various commercial, residential, utility, and other construction projects.

Perusahaan mengelola 332 unit peralatan dari perusahaan induknya, PT Waskita Karya (Persero) Tbk, dan ditargetkan untuk menerima tambahan peralatan. Peralatan tersebut menunjang performa PT Waskita Karya Infrastruktur dan memperluas lini bisnisnya.

The Company manages 332 equipment units from its holding company, PT Waskita Karya (Persero) Tbk, and is set to receive additional equipment. These resources enhance PT Waskita Karya Infrastruktur's performance and expand its business lines.

01 **Earthworks Equipment:**
Excavator, Bulldozer, Compactor, Motor Grader, Wheel Loader, Vibratory Roller, Mobile Roller, Sheep Foot Mobile.

02 **Lifting Equipment:**
Boom Lift, Mobile Crane, Crawler Crane, Tower Crane, Forklift, Launching Gantry.

03 **Concrete Activity Equipment:**
Concrete Pump, Concrete Formwork/Bekisting, Concrete Traveller Form, Concrete Vibrator Electric.

04 **Material Production Equipment:**
Stone Crusher Plant, Ashpalt Mixing Plant, Concrete Batching Plant.

05 **Flexible Pavement Equipment:**
Roller Pneumatic Tire Mobile, Roller Tandem, Asphalt Finisher.

06 **Rigid Pavement Equipment:**
Concrete Paver, Concrete Slipform, Road Sweeper Mobile.

07 **Light Equipment:**
Generator Set, Compressor Diesel.

08 **Transportation & Logistics Equipment**
Dump Truck, Truck Flatbed, Truck Self Loader, Truck Ankle, Container.

09 **Erection Equipment:**
Erection Tools, Ginpole, Stringing Tools.

10 **Foundation Equipment:**
Vibro Ripper, Drilling Equipment.

11 **Surveying and Testing:**
Total Station, Waterpass, GPS System, Surveying & Testing.

12 **Others Equipment:**
Bar Cutter, Bar Bender, Scaffolding, & Supporting Equipment.
